

» **CAT® REMAN LONG BLOCK ENGINES**

*A COST-EFFECTIVE
OVERHAUL OPTION
FOR YOUR ON-HIGHWAY
TRUCK ENGINE*

MORE PREINSTALLED PARTS MEANS
YOU SAVE TIME AND MONEY.

NOT ALL OVERHAULS ARE CREATED EQUAL

A Cat® Reman Long Block gives you the quality and warranty you expect from a Cat product. And it saves you time, with a fully remanufactured and assembled product.

- No need for reusability determination
- No need to measure liner projection
- No dealing with rust & corrosion issues or broken bolts
- No need to outsource machining work

A Cat Long Block is a great repair option for the 2nd, 3rd or 4th overhaul because some of the components reused on the 1st overhaul may no longer meet reusability guidelines.

KEEP RUNNING WITH CAT REMAN

Using a Cat Reman Long Block for your overhaul may align with other repairs, like rear main crankshaft seal replacement or clutch replacement, saving you thousands in labor costs. And they're remanufactured to original specifications to meet Caterpillar quality standards, so you can keep running with lower owning and operating costs.
